Lead Time to Order & Final Install On-site :

Ordering preserved mosses from Europe typically takes **2–3 weeks,** subject to availability. Preparation of materials prior to on-site installation requires approximately **2–5 days**, depending on the overall design and size.

Final on-site installation usually takes **1–2 days.** Preserved moss installation must be scheduled as the **final stage of the renovation process** to prevent dust or damage from other contractors.

Terms of Payment

- 50% down payment upon confirmation with PO letter.
- Balance of payment after project completed within 7 days.
- Any changes of moss arrangement will be charging 20% from overall cost base on amendment works, usage / size of mosses.

** **Warranty:** Preserved moss does not come with a formal warranty. However, any moss detachment within the ***first 30 days*** will be covered by us. Upon project completion, we will also provide ***extra preserved moss*** and guidance on how to touch up minor damaged areas if needed.
